

80.000kg Gross Weight Steel Partitioning For Factories And Warehouses Top Performance

Our Product Introduction

for more products please visit us on warehouse-rackings.com

Basic Information

Product Specification

- Model NO.: QIFEI-Isolation Network
- Material: Plastic
- Structure: Pallet
- Type: Selective Pallet Racking
- Mobility: Adjustable
- Height: 0-5m
- Weight: 150kg
- Closed: Open
- Development: Conventional
- Serviceability: Common Use
- Color: Customized
- Lead Time: 15 Days
- Transport Package: Safe
- Specification: 800*800*80
- Trademark: Customized

Product Description

***Note: The specifications, sizes, colors and surface treatments of the products can be customized!**

Industrial Mesh Partitions

What Is Mesh Partitioning

Mesh partitioning is also known as internal warehouse fencing and is system to divide and sub divide factories and warehouses. Runs of mesh fencing are configured using posts and panels of varying heights and widths.

QIFEI's Storage and Industrial Mesh Partitions

QIFEI provides a cost-effective modular mesh panel system, which can be customised to fit to your specific requirements. All our systems have a quality guarantee and are available in varying security levels.

Panels are easy to assemble on-site, resulting in optimised storage areas. Our professional team is available to design and install an industrial mesh partitioning system within your warehouse or other commercial workspace to meet the specific requirements of your business

What Are The Uses of Mesh Partitions?

QIFEI Mesh Partitions provide a fully adaptable storage solution that fits all your storage requirements. They are used in a wide range of applications, most notably to increase security or safety within a commercial premises.

Standard components and a wide range of standard panel dimensions help us to provide tailor-made storage solutions of the highest quality. The benefits of mesh partitioning are widespread including allowing natural light to filter through and facilitating sprinkler systems to aid in fire safety.

Typical uses of mesh partitioning systems within the warehouse and factory environment includes: -

- Restricting access to certain areas including storage compounds
- Securing items of value
- Storing hazardous liquids
- Create demarcated areas
- Securing machinery
